Disclosure of Ownership

To Our Patients:

Public Law of the State of New Jersey mandates that a physician, chiropractor or podiatrist must inform their patients of any significant financial interest they may have in a healthcare service.

Accordingly, we wish to inform you that your doctor has financial interest in the Rockland and Bergen Surgery Center. Your physician has become an owner as a result of their commitment to quality healthcare and to provide better service to their patients.

The patient has been informed whether any of the services or facility fees associated with the referral will be considered to be reimbursed at an “out-of-network” level by the patient’s insurance carrier or other third party payer.

You may of course seek treatment at a healthcare service of your choice. A listing of alternative healthcare service providers can be found in the classified section of your telephone directory under the appropriate heading.
